LEADERSHIP FOR MANUFACTURING EXCELLENCE

Inject a positive culture and get results faster

// Great for building leadership skills; gets you out of your comfort zone and gaining results for the business. **Program Participant**

// The GMC Leadership program has been consistently used by the team at Backwell IXL in delivering a unique development opportunity for our emerging manufacturing leaders. The participants gain valuable knowledge in Lean Manufacturing Techniques, Leadership and Innovation that have been implemented to deliver operational and personal improvements.

Adam Dellar, General Manager, Backwell IXL

// The Leadership for Manufacturing Excellence Program is problem-based learning. We use this program to solve those difficult business problems that, for whatever reason, never seem to get done. The outcome is that the people we send learn new skills and the business gets a difficult problem solved.

Win-Win. Jamie Baensch, General Manager, Air Radiators

// A tremendous opportunity for frontline personnel to improve their interpersonal and leadership skills, to learn from other business peers and for building their confidence while engaging in value adding outcomes. **Industry CEO**

BENEFITS

- Average return on investment from this program is over \$500k per organisation
- Develop personal leadership skills to help you engage with your team and achieve stronger results
- Learn and apply lean concepts during interactive workshops
- Discover strategies to improve team culture

- Build your network of like-minded people

PROGRAM HIGHLIGHTS

- Six workshops, including one onsite workshop & tour
- Two one-on-one coaching sessions in your workplace
- Experienced and engaging workshop facilitators
- Integrated workplace improvement project

WHO SHOULD PARTICIPATE?

The Leadership for Manufacturing Excellence Program is designed for frontline managers and emerging leaders.

The program provides participants the opportunity to increase their leadership skills in the areas of innovation, lean, project implementation and business culture, helping them to succeed in today's manufacturing environment.

Through a series of workshops, site visits, one-on-one coaching sessions and peer learning, this program offers a unique opportunity to:

- Enhance leadership skills and personal impact
- Confidently lead teams through change
- Develop a culture of innovation and continuous improvement
- Identify and lead the delivery of tangible business benefits

FACILITATORS

GMC works with a team of experienced facilitators to deliver the content of the Leadership for Manufacturing Excellence Program.

Each facilitator is an expert in their respective field with many years of experience.

The facilitators deliver program learnings in a compelling, highly engaging way and in the context of today's manufacturing environment, leading participants to create transformational results.

What could you achieve?

Please contact Leanne Nelson to discuss on **0419 319 214**.

Registration Form

Company Name:

GMC/ENG Member?

Yes

No

To ensure commitment to supporting participation & to completing a workplace project as part of the Leadership for Manufacturing Excellence Program we require a Company Sponsor to be nominated. The Company Sponsor will be required to sign off on the workplace project & will be invited to the program launch & graduation. There is no requirement for the Company Sponsor to attend any workshops. The Company Sponsor should be the participants' Manager (direct or higher) & have authority to approve the workplace project.
